

# Thank You

## Thank you to the amazing Taranaki 19 Speed Golf Challenge Team

We would like to thank Mick McBeth, Bernie Smith, Jamie Reid and Reeve Barnett for their incredible effort and the funds they raised in January this year from their fundraising golf challenge. This challenge took place on the fourth anniversary of Reeve donating Adelle one of his kidneys for her second transplant 28th-30th January 2021.

All the money raised has gone to Kidney Kids NZ and is over \$45,000. Absolutely wonderful.

Thanks guys, this is a brilliant start to the year for Kidney Kids NZ and big thank you also to all of those people who supported them and generously donated.

The inspiration for this challenge came from the support Kidney Kids NZ gave to Adelle and her family. Adelle McBeth, (Kidney Kid board member), was diagnosed with kidney disease when she was 12, facing years of hospital stays in both Taranaki and Starship, dialysis and a transplant as a kid. Kidney Kids support for her and the family during this time was beyond valuable. They wanted to give back so that Kidney Kids can continue to support other families as we did for Adelle. And they certainly have achieved that!. ***Check out the Seven Sharp story link [click here](#)***
